### MESSAGE

I am happy to know that Maharashtra Economic Development Council has completed its 60<sup>th</sup> years of dedicated service to the people of Maharashtra. It is noteworthy that the well-research advice of the MEDC has great contribution in socio-economic development and keep the State on the forefront of the development.

It is praiseworthy that on completion of 60<sup>th</sup> years of its services MEDC has decided to launch a special publication on 'Water Resources Planning for Economic Stability'.

I hope that this publication will serve a great purpose of dissipating knowledge and will help people to understand the various aspects of the issues of climate change, wise use of water, technologies to minimize water wastage and recycling etc.

I congratulate all the members of MEDC for their initiative and wish them all success.

(Devendra Fadnavis)

The MEDC publishes a monthly Economic Digest in hard as well as in e-version. It features well researched papers of economic and social importance, at global, national, and regional levels.
